

1. The first step is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. The second step is to analyze the problem and identify the root causes. This involves breaking down the problem into smaller, more manageable components.

3. The third step is to develop a plan of action. This involves identifying the steps that need to be taken to address the problem and the resources that will be required.
